Online product selector for builders

BuilderVision Inc.'s new online tools allow builders to offer home buyers a quick and efficient way to choose desired products and materials for custom homes. This resource simplifies the selection process for home buyers allowing the client to decorate by room or by product category in an interactive way from their home computer. Interaction between the builder and selection center is online. It includes flooring, appliances, plumbing, paint, cabinets and more. Time saved, and travel hassles no more! **Contact 248-380-9080 or visit builderVision.com.**
